ZAHA HADID 1950 – 2016

HER LEGACY/ LIVES ON

The Opus by Omniyat is a magnificent tribute to the starchitect's magnum opus, as Dame Zaha Hadid lives on through the work she loved and nurtured, the landscape she helped shape, and the new worldview of freedom and fluidity that she bestowed.

‘I like
architecture
to have some
raw, vital,
earthy quality.’

—— ZAHA HADID

Hadid has been called “the queen of the curve”, and a creator of ambitious wonders inspired by nature, with sinuous, billowing forms, where the laws of physics appear suspended. She is recognized as a pioneer of unique aesthetics, with natural organic forms, meticulously intertwined with the precision of mathematics.

Through numerous prestigious awards, she has been recognized as a visionary thinker, determined to push the limits of structural engineering and material science. In 2004 she became the first woman to win the Pritzker Prize, architecture’s Nobel. She was awarded the Dame Commander of the Order of the British Empire for services to architecture in 2012. Her awards also include the Republic of France’s Commandeur de l’Ordre des Arts et des Lettres, and Japan’s Praemium Imperiale. Twice winner of the Stirling prize, in 2016 she also became the first woman to receive the RIBA’s gold medal. Shortly after, the great architect died, at the age of 65, leaving a tremendous legacy.

Her visions continue to transcend time, movement and space, and will for years to come.

DEFINING THE PERFECTION

TRULY ONE OF A KIND

LUMINOUS & LIQUESCENT/ SCULPTURAL WONDER

The Opus by Omniyat comprises two structures that form a single cube which appears to hover above the ground, eroded by a fluid void.

It epitomizes Zaha Hadid's signature aesthetic – beautiful, sleek, inspired by nature's beauty and dichotomy, and firmly future-focused.

ART & ARCHITECTURE

From the Queen of the curve

Dame Zaha Hadid has been called “the queen of the curve”, because of her style that promotes unity between human habitation and the natural world, an interrelated composition of buildings, furnishings and surroundings.

Designed with ingenuity and a sculptural organic aesthetic as a single, liquescent ice cube, eroded by a free-form, fluid void, The Opus is a striking combination of cutting-edge creativity and cultural art that embodies simultaneously the formidable legacy of the architectural icon Dame Zaha Hadid and Omniyat's legendary approach to each property as a unique work of art.

Brought together by an authentic spirit, and united by ingenuity and innovation, the Hadid - Omniyat partnership has created a masterwork of design whose repertoire gravitates towards interconnectedness and originality.

LIGHT AFTER DARK

A brilliant and incandescent display

The Opus facade, clear and infinite, is the perfect canvas for a majestically artistic and breathtaking display of LED lighting, individually programmed and part of a complex matrix.

During the day The Opus is a luminous surface, reflecting the glorious Dubai sun and sapphire sky, mirroring the dazzle of the water and its freshness nearby.

At night, its LED lighting brings to life the distinct character of the building, complementing the vibe of the towers. It is a stark contrast with the darkness around it. Its brilliance provides a wonderful spectacle, signaling vividly the landmark status of The Opus by Omniyat and accentuating its singularity.

light show.’

THE OPUS VOID

Give space to light

The void is what makes The Opus by Omniyat an inspirational and futuristic architectural and design phenomenon.

Its organic harmony and energy are powerful and distinctive, unique and exceptional.

The void adds a poetic beauty to The Opus, mirroring a natural wonder to admire and appreciate.

The one of a kind reflective facade is the centerpiece of architectural creativity and cultural art form that defines The Opus as the fruit of an ingenious partnership between Omniyat and Zaha Hadid.

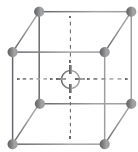

THE BRIDGE / ORGANIC CONNECTION AND UNITY

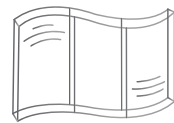

Like the void, the bridge is a one-of-a-kind architectural and engineering marvel. It connects the two towers of The Opus, interlinking its mixed use spaces, arching over the void.

The bridge is manufactured with curved double glass, double curved aluminum frames, and steel elements.

It consists of three floors of the most exclusive serviced residences, where our honored guests will enjoy not only a spectacular view but also the feeling of being at the pinnacle.

All the steel elements have been designed using 3D software to ensure that the steel structure of the bridge would fit the free flowing glass that wraps around it.

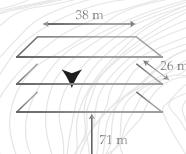

Each piece of double curved glass is unique and has been designed, constructed and installed individually.

More than five international engineering teams have worked together to develop the design of the steel elements and that of the complicated double curved facades.

The weight of the primary steel is 745 tons, but reaches 1,000 tonnes when secondary steel, slabs, and glass are included.

At a height of 71 meters from the ground level, the bridge has a length of nearly 38 meters and a width of nearly 26 meters, with the height varying between 21 meters and 25 meters.

PRISTINE BEAUTY OF THE DESERT/ PURE & SIMPLE

Drawing inspiration from the environment surrounding The Opus, Zaha Hadid designed the ultimate residence experience, where luxury, style, technology, furniture, objects and fixtures blend into a uniquely dramatic fusion of poetics, opulence, and modern living.

Created to suit your contemporary lifestyle and refined tastes, The Opus Residences are hybrids of comfort and function, livable works of art and design. All one bedroom furnished residences embody the desert theme.

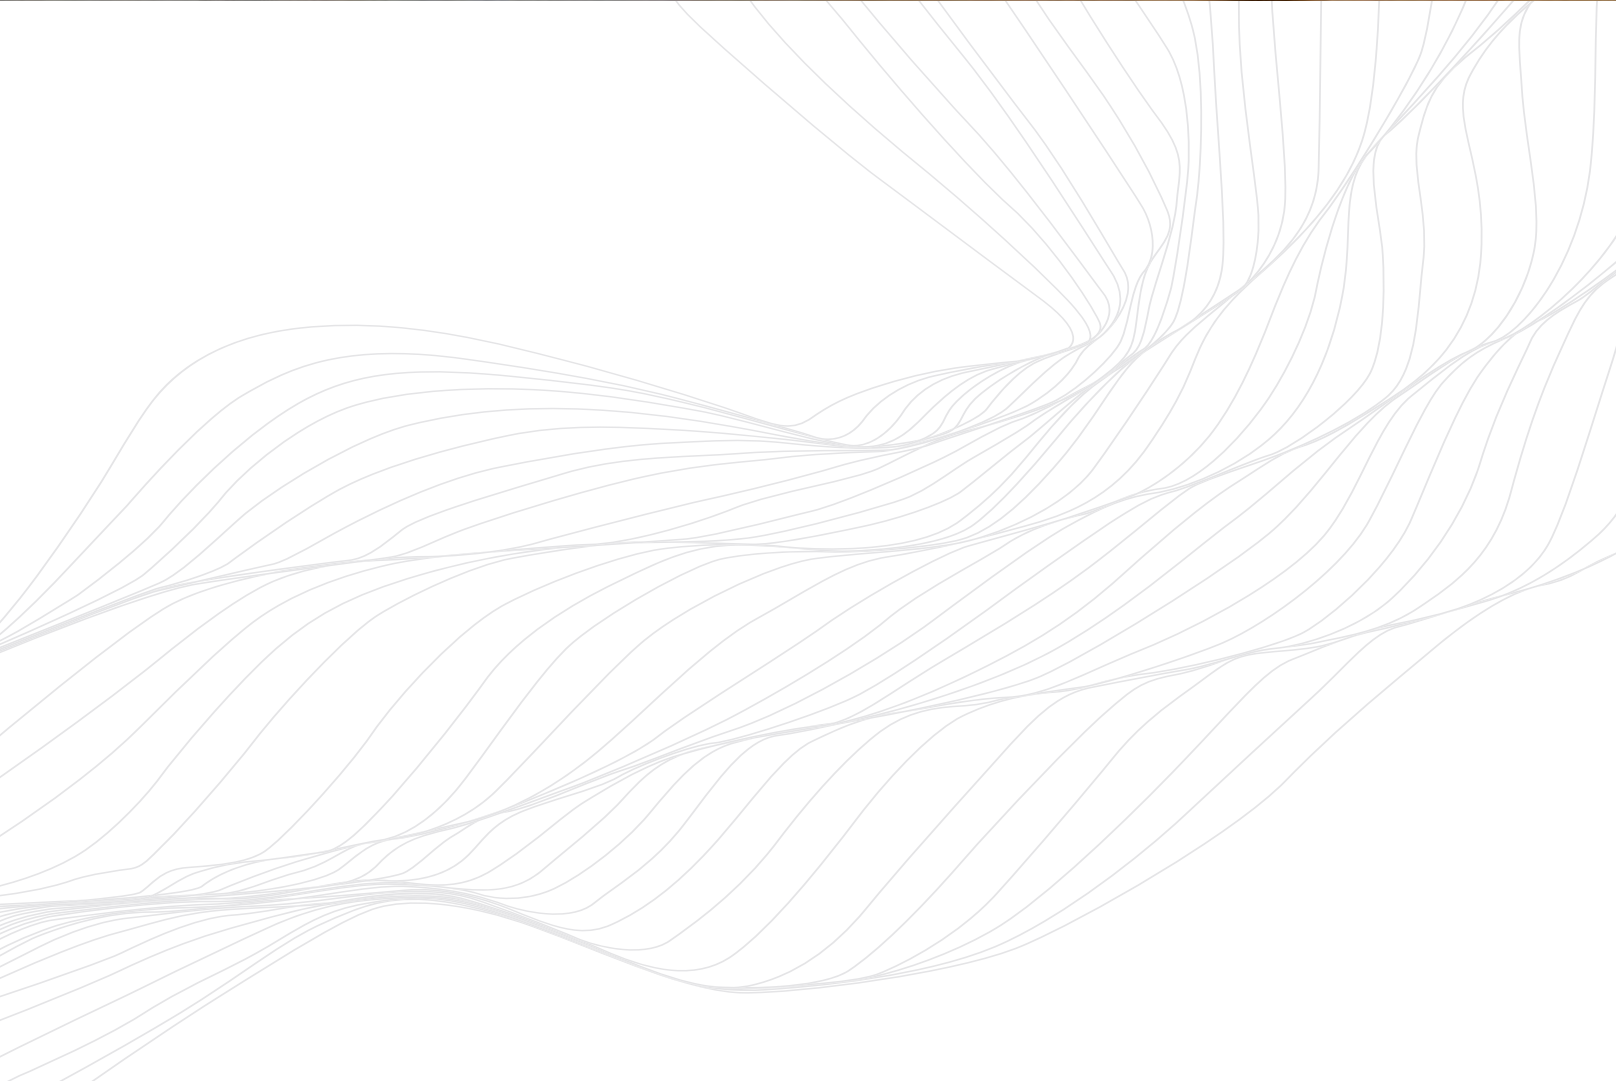

DESERT THEME

In sync with the glory of nature

The characteristics of purity, peace and eternity associated with the infinity of the desert and its beautiful sand dunes are translated into a personalized dream-living space in an aesthetically unique way.

The desert theme is expressed through each impeccable detail of its designed interior, from natural textures, mood lighting and intelligent composition to cutting-edge materials. Ergonomic principles and organic forms chromatically mirror the theme of the room. This in turn enables a seamless integration of the resident's personality and preferred ambiance, with The Opus and Dubai.

MIDNIGHT BLUE THEME/ POWER AND MYSTERY PERSONIFIED

For those who see poetry in the orb of night, seeking sophistication and wisdom.

The particularly dark shade of blue was named for its resemblance to the color of the sky on a full moon night. The Opus presents refinement and natural beauty personified in Zaha Hadid's exquisitely designed apartments, through an interplay of this incandescent color in all details and elements, ranging from wall design, to furniture, lighting, and its suave, smooth surfaces.

All two and three bedroom furnished residences incarnate the Midnight Blue theme.

MIDNIGHT BLUE THEME

The color of your life, your style

Midnight blue represents both the sky and the sea, the expansiveness and freedom of open spaces, an imaginative and inspiring playground. It is considered a particularly elegant color. Christian Dior once said that "midnight blue is the only color that can ever compete with black."

The Midnight blue theme exemplifies depth, wisdom, confidence, stability and intelligence, providing an artful living space for residents of the two and three bedroom serviced apartments.
